

Ingham Institute Honours Scholarship Opportunity

The Ingham Institute for Applied Medical Research is calling for applications for 2x Honours Scholarships funded by the generous donation of Coronation Property Co.

Each Scholarship will provide a \$5,000 stipend to a successful student who enrolls in a full-time Honours research program in 2018.

Application requirements:

- The student's principal Supervisor must be a staff or affiliate member of the Ingham Institute
- The Honours research project must be conducted at the Ingham Institute's research facilities and contribute to the academic culture of the Institute
- The student must enrol with one of Ingham Institute's affiliated universities
- The Ingham Institute's support must be prominently acknowledged in all presentations and publications resulting from this work
- The Honours program must commence in the first semester 2018

Selection criteria:

1. Feasibility, scientific merit and potential health impact of the program
2. Student academic record and research experience. It is expected that the student will be aiming for first class honours degree
3. Supervisors' scientific and mentoring track record
4. Leveraged support for the project from other sources
5. Alignment with existing research programs at the Ingham Institute.

To apply, please provide the following documentation:

1. The project description including alignment with the Ingham Institute's strategic directions and a lay language summary (total 2 pages maximum)
2. Student applicant's CV and Academic Transcript
3. The Supervisor's CV
4. Hardware, methods and other resources currently available to support this project
5. Additional infrastructure requirements

Applications extended till Monday 19, February 2018.

Submit your application and supporting documentation to research@inghaminstitute.org.au
