

VISION

Inspiring health. Transforming care.

Driven by the needs of the community, we are committed to inspiring better health and transforming the treatment and care of people living with common medical conditions and diseases.

MISSION

To combine local purpose, national significance and global impact, by making and applying discoveries that translate to measurable improvements in health and healthcare.

To radically improve the quality of life for all through our strategic network of world-class medical research centres and strategic partnerships.

VALUES

Intention

We are responsive and act boldly, knowing that research changes lives.

Inclusiveness

We advocate for and direct our efforts towards health equity.

Importance

We ensure relevance in all our endeavours.

Impact

We evaluate success by applying our research and measuring improvements.

Integrity

We operate with transparency in everything we do.

STRATEGIC ADVANTAGES

- Close and productive relationship with the South Western Sydney Local Health District (SWSLHD).
- Partnerships with multiple local and global universities including UNSW Sydney and Western Sydney University (WSU).
- One institute with 3 strategic locations: Liverpool, Campbelltown (Macarthur) and Bankstown.
- Embedded in a culturally and linguistically diverse (CALD) population of over a million, expected to grow 33% by 2031.
- Strong med-tech industry relationships and partnerships.
- Active participant in innovation precincts.
- World-class Clinical Trials Centre with commercial capability.
- Enduring foundational philanthropic partnerships.

RESEARCH CENTRES

Ingham Institute Liverpool

- Cancer
- Cardiovascular
- Neurology & Stroke
- Obstetrics
- Robotics, Medical Devices & Health Technology

Ingham Institute Macarthur

- Addiction Medicine
- Diabetes & Obesity
- Indigenous Health
- Mental Health
- Paediatrics & Child Wellbeing

Ingham Institute Bankstown

- Ageing
- Orthopaedics & Musculoskeletal
- Rehabilitation
- Upper Gastrointestinal Surgery

Clinical Academic Units

Brain Injury | Child Psychiatry | Critical Care | Diabetes | Early Health | Emergency Medicine | Gastroenterology, Liver & Inflammatory Bowel Disease | Gastrointestinal Viral Oncology | Immune Tolerance | Limb Preservation | Oral Health | Orthopaedics | Primary Health | Respiratory Medicine | Women's Health

Cross-cutting Platforms

Allied Health | Anatomical Pathology & Genomics | Cell-based Disease Intervention | Clinical Trials | Commercialisation | Correlative Microscopy Facility | Microbiology & Infectious Diseases | Nursing & Midwifery | Population Health

STRATEGIC PILLARS

Focus

Focus our research

Prioritise research that is compatible, competitive and impactful.

Resource at scale

Increase external income. Increase proportion of funding derived from large-scale, team-based schemes.

Attract the best

Employ 'magnet' researchers while increasing income and output per researcher.

Develop research infrastructure

Expand our support infrastructure and clinical trial capacity. Create effective spaces that promote collaboration and cross-pollination.

Align

Prioritise SWSLHD needs

Align research with local clinical service plans, targeted to large, distinctive, patient populations.

Work together

Establish fluid and immersive work environments.

Inspire our community

Establish the Ingham Institute as a knowledge hub and as a trusted partner for the South Western Sydney community.

Connect

Advance our network model

Establish 'One Institute Multiple Sites' at Liverpool, Macarthur and Bankstown.

Create synergies (research, education, clinical)

Develop on-site research-intensive clinics in areas of high research focus and SWSLHD priority.

Take a precinct view

Become the 'gateway to health research' for the innovation precinct and industry at the Aerotropolis.

Build our brand

Build awareness of the Ingham Institute importance and impact through strong communication platforms and proactive engagement.

Compete

Streamline functions

Ensure operational efficiency to drive value and minimise administrative workload on researchers.

Be open for business

Develop a seamless research and business engagement model.

Implement Commercialisation Program

Establish a formal entity for innovators from concept to commercialisation.

Nurture loyalty

Nurture an enthusiastic workforce and create a culture of belonging for all our stakeholders.
